

Homes built with care, by a family that cares.

Extensions, renovations and new builds across Cardiff and South Wales, from an award-winning, family-owned team.

Winner 2017

Winner 2019

Winner 2021

WHO WE ARE

A family firm with a reputation to protect.

Atlantic Construction is a family-owned building company based in Cardiff. Since 2006 we have built extensions, renovated homes and delivered new builds across South Wales. Our name is on every job, so we plan carefully, price honestly and finish properly.

The planning, costing and paperwork are handled in house, which leaves our site team free to do what they do best: build well.

Family-owned

You deal with the people who own the business.

Award-winning

Master Builder Awards winner 2017, 2019 and 2021. LABC Building Excellence regional winner 2019 and 2021.

One team

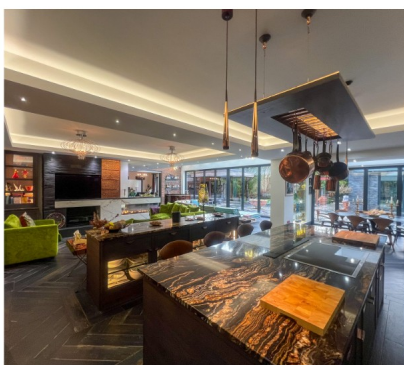

From first costing to final handover.

WHAT WE BUILD

Extensions

Single and double storey, kitchen and garden rooms, loft and garage conversions. More space without moving house.

Renovations

Full refurbishments, structural alterations and period properties brought up to date with respect for what is already there.

New builds

Individual homes and small developments, built to the drawings and finished to a standard we are proud to sign off.

Clear prices. Clear plans. No surprises.

01 Visit and listen

We see the site, read the drawings and understand what you want to achieve.

02 Cost it properly

An early budget price to test the idea, then a detailed quote you can compare line by line.

03 Agree the plan

A fixed scope, a programme and a single point of contact before work starts.

04 Build safely and tidily

Our own team on site, regular updates, and a site you would be happy to show the neighbours.

05 Hand over with pride

A walk-round, a snagging list closed out, and certificates in your hands.

For homeowners

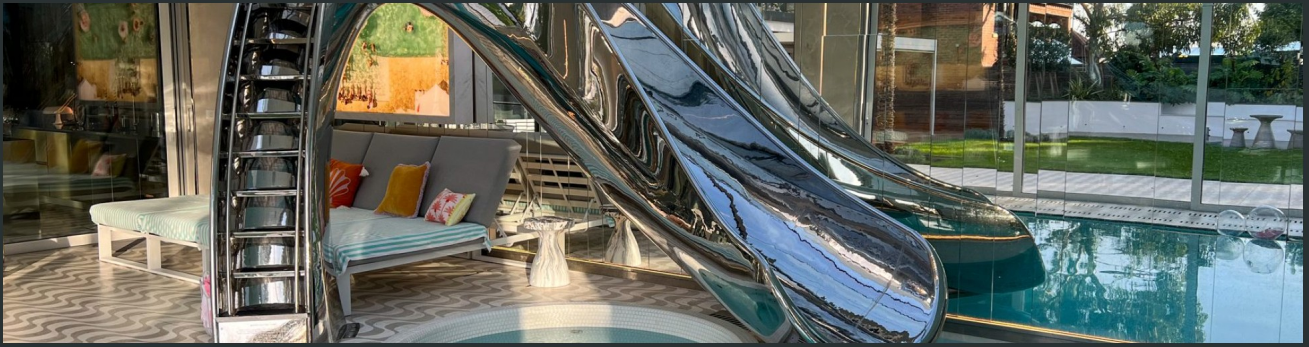

One trusted builder from start to finish. We explain every cost, keep you updated and treat your home with respect while we work in it.

For architects and designers

We build to your drawings, price tenders accurately and raise questions early. Your clients are in safe hands and your design is delivered as intended.

"We deliver what we promise. A high standard of quality and workmanship every time."

LEN SALEH - DIRECTOR, ATLANTIC CONSTRUCTION

START A CONVERSATION

Let's talk about your project.

Whether you have a sketch, planning drawings or a full tender package, we will give you a straight answer on cost and timing.
